For people who like to explore Dungeons, like beautifully animated women and like ergonomically attractive song lyrics, this game is definitely recommended. Without spoiling it, it can be said that the YOMI Protagonist, who also ©m plays permanently with her, tries to find out who tore her control of the dungeon. So for the fans of Sakura's usual parts, I can recommend this here. Unlike other games in the Sakura series, this is not a simple visual novel. She soon discovers that it was a ²hersknight who woke her from her sleep, and after a brief fight and Negotiation, the knight decides to join her in an adventure to recover the dungeon! Together, they will dig up great treasures, reveal secrets and hidden rooms, and recruit monster girls to fight alongside them... all while avoiding traps, fighting dangerous enemies and bosses on multiple floors, and discover the crooked plans of the new dungeon lord. Capture monster girls, vest loot, explore the depths of the dungeon and retrieve what's yours in this dungeon game. Game CharacterLead and control a powerful group of atÁ 6 characters! First-person view with retro dungeon crawling! 3 Set up difficulty ¡ (Normal, Hard and Abyssal) with 15-25 hours of play, depending on your skill and the setting of difficulty!50+ different types of monsters to fight and capture. AIA ©m of the dungeon's exploration. Sakura's dungeon is also full of extensive dialogues and many scenes and artwork from the scene for the player to unlock as he carefully navigates the dungeon. Also important is a patch that allows you to see additional erotic content.Read more actually the price.Finally a piece of Sakura, with real game elements, which can be even more fun. Your dungeon was stolen from you while you were sealed. Like an old game "watcher's eye," very fun to play and with a good difficulty and different level of difficulties, but not impossible to finish. Monsters can be captured by you and used for your own fight. From DJ crawling like we like, an 18+ patch like you like I say yes, yes yes!!!! PS again: think about rescuing the entire towel and a clean joystick for adults only, fun, not always easy, a deep exploration UN Dungeons hunting for girls and sexy monsters.
